using antibiotics and antimicrobials more wisely and more sparingly, we can slow down antibiotic resistance.

We need to change the way drugs are given to people, because clearly, they are overprescribed in the developed world and often not fully taken in the underdeveloped world. But we also need to look at the way drugs are given to animals. According to the World Health Organization, 50 percent of all antibiotics are used in agriculture, both for animals and for plants. The U.S. livestock producers use drugs to treat sick herds and flocks, as they should. But they also feed a steady diet of antibiotics to help the livestock so they will gain weight more quickly and be ready for market sooner. Many of these drugs are the same ones used to treat infections in people.

Prolonged exposure to antibiotics in farm animals provides a breeding ground for resistant strains of E. Coli and salmonella and other bacteria harmful to humans. When transferred to people through the food we eat, they can cause dangerous infections.

A few weeks ago, an interagency task force issued a draft "Public Health Action Plan to Combat Antimicrobial Resistance." The plan provides a blueprint for specific coordinated Federal actions. A top priority action item in the draft plan highlights work already underway at the Food and Drug Administration Center for Veterinary Medicine. In late 1998, the FDA issued a Proposed Framework for evaluating and regulating new animal drugs in light of their contribution to antibiotic resistance in humans.

Mr. Speaker, my amendment, which is now incorporated in the agricultural appropriations bill, directs an additional \$3 million toward the FDA Center for Veterinary Medicine and their work on antibiotic resistance related to animal drugs. Director Sundloff has stated the antibiotic resistance is the center's top priority. However, the "framework document" states the agency will look first at approvals for new animal drugs and then will look at drugs already in use in animals as time and resources permit. That is why the additional \$3 million will give a significant boost to the ability of the Center for Veterinary Medicine to move forward on antibiotic resistance and to begin to look at those drugs already in use in animals.

More importantly, Mr. Speaker, this body finally this week took a proactive step to protect us from resistant bacteria in our food supply. If the Senate acts quickly and decisively, many lives will be saved, particularly among young children and particularly among our elderly parents, the people who are most vulnerable to food-borne illnesses.

TRIBUTE TO MAXWELL EMMETT "PAT" BUTTRAM AND AUGUSTUS MCDANIEL "GUS" BUTTRAM

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Alabama (Mr. ADERHOLT) is recognized for 5 minutes.

Mr. ADERHOLT. Mr. Speaker, on June 19, 1915, a star and a humanitarian was born. Maxwell Emmett, better known as "Pat" Buttram of Addison, Alabama, in Winston County brought laughter and untold hours of sheer enjoyment to citizens across this great Nation. His film career spans 46 years from the early days as Gene Autry's sidekick to his parts as a voice in four of Disney's animated movies. Millions of television viewers will remember Pat for his role as the affable Mr. Haney in the television series "Green Acres" and "Petticoat Junction." Pat had a keen wit in the style of Will Rogers and was a much soughtafter speaker.

Pat was brought up in a Methodist parsonage, son of a circuit-riding Methodist minister. He was the seventh child in a family of five boys and three girls. Pat never forgot the early lessons taught by this strong, God-fearing family. Concern for others was a staple in the Buttram household. As Pat's fame grew, he used his celebrity status to perform in benefits and shared his time and talents to help those less fortunate. He never forgot his roots or the place he called home. He donated not only money, but also his time to help build Camp Maxwell near his home in Alabama. This camp has played an important part in the lives of youth and the handicapped.

Pat died in Hollywood, California, on January 8, 1994, and was laid to rest in his family church at Maxwell Chapel in Winston County, Alabama.

While maybe not as well known, Pat's older brother, Gus Buttram, who lives in my hometown of Haleyville, was equally committed to serving others. Gus was born on June 21, 1913. While in high school, Gus suffered a paralysis that was brought on by tuberculosis. After surgery and rehabilitation, he graduated from Altoona High School in Etowah County, Alabama. Following graduation from Athens State in 1942 with a bachelor's degree in science and history, Gus married Rebecca, better known as Becky Buttram. Eppes of Goodwater, Alabama, on January 18, 1943. He followed his father into the ministry as a fourth generation Methodist minister. His first church appointment was at Remlap Methodist Church in Blount County, Alabama. Over the next 3 decades he would have many assignments in north Alabama.

Gus and Becky's desire to serve others is unquestioned. Turning down more lucrative career paths, Gus and Becky enriched the lives of those they serve. Retiring in 1978, Gus and Becky

live at Pebble, near Haleyville, in Winston County, Alabama. They take great pride in their children, Mary Buttram Young, who is a dialysis nurse at Helen Keller Hospital in Sheffield, Alabama and Marvin McDaniel, better known as "Mac" Buttram, who is pastor of St. Andrews United Methodist Church in Cullman, Alabama, and is a fifth generation Methodist minister.

Mr. Speaker, it is my privilege today to recognize these two brothers, Gus and Pat Buttram, for their unselfish service to others.

REVISIONS TO ALLOCATIONS FOR HOUSE COMMITTEE ON APPROPRIATIONS

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Ohio (Mr. KASICH) is recognized for 5 minutes.

Mr. KASICH. Mr. Speaker, pursuant to Sec. 314 of the Congressional Budget Act, I hereby submit for printing in the CONGRESSIONAL RECORD revisions to the allocations for the House Committee on Appropriations.

As passed by the House on June 29, 2000, H.R. 4425, the conference report accompanying the bill making fiscal year 2001 appropriations for Military Construction, Family Housing and Base Realignment and Closure for the Department of Defense, included emergency funding for fiscal years 2000 and 2001. Budget authority provided for emergencies totaled \$11,163,000,000 for fiscal year 2000 and \$28,000,000 for 2001. Outlays from those emergency appropriations are \$2,078,000,000 for 2000 and \$5,254,000,000 for 2001.

As reported to the House, H.R. 4811, the bill making fiscal year 2001 appropriations for foreign operations, export financing, and related programs, includes \$160,000,000 in budget authority fiscal year 2000 emergencies. Outlays are \$11,000,000 for fiscal year 2000 and \$50,000,000 for 2001.

Accordingly, the fiscal year 2000 allocations to the House Committee on Appropriations are increased to \$586,474,000,000 in budget authority and \$614,029,000,000 in outlays. The fiscal year 2001 allocations to the House Committee on Appropriations are increased to \$601,208,000,000 in budget authority and \$631,039,000,000 in outlays. Budgetary aggregates become \$1,483,073,000,000 in budget authority and \$1,455,479,000,000 in outlays for fiscal year 2000, and \$1,529,413,000,000 in budget authority and \$1,500,260,000,000 in outlays for fiscal year 2001.

Questions may be directed to Dan Kowalski or Jim Bates at 67270.

IN GOD WE TRUST: A FITTING MOTTO FOR AMERICA

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Colorado (Mr. Schaffer) is recognized for 5 minutes.

Mr. SCHAFFER. Mr. Speaker, I rise today to draw attention to a resolution that I introduced earlier, the number of which does not yet exist, I am told, but will soon; but the resolution deals
